SUMMARY

Full-stack developer skilled in HTML, CSS, JavaScript, Bootstrap, React.js, Adv. JavaScript, jQuery, Python, Django, Database and GitHub. Innovative and results-driven Full-Stack Developer with expertise in Python-based web development. Proficient in both front-end and back-end technologies, with a strong ability to design, develop, and maintain scalable web applications.

WORK EXPERIENCE

- **Professional Training at Tops Technologies - Rajkot Institute**

As a Full-Stack Developer, I have built a strong foundation in both front-end and back-end technologies. My learning journey began with HTML and CSS, mastering the structure and design of web pages. I enhanced interactivity using JavaScript, including advanced concepts and libraries like jQuery, and further expanded my front-end expertise with Bootstrap for responsive designs and React.js for creating scalable, component-based user interfaces. On the back-end, I specialized in Python and Django to develop robust server-side applications and RESTful APIs. My experience with databases ensures efficient data management, while GitHub has been integral to my version control and collaboration. This blend of skills enables me to craft end-to-end web solutions that are functional, user-friendly, and scalable.

EDUCATION

School

D. D. Ladani -keshod

Collage

Diploma - computer engineering
Government Polytechnic - Bhuj

Tops Technologies-Rajkot

1.5 year Full-stack Development Training

ADDITIONAL INFORMATION

Skills:
